

Heatworx® Transfer

HWTG

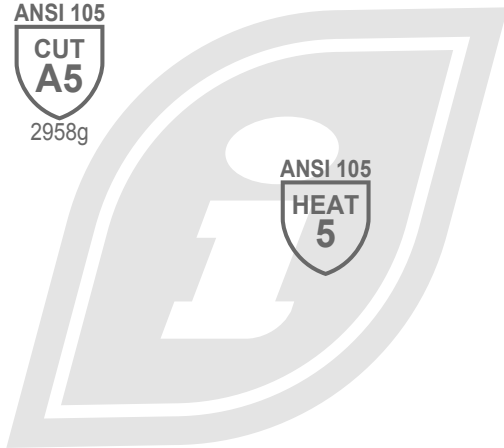

EXTREME THERMAL PROTECTION

The Heatworx® Transfer glove packs extreme thermal protection for coping with high heat manufacturing facilities. It is constructed of 800g Aramid knit shell plus a 850g 100% wool lining to provide excellent heat and abrasion resistance. Finger construction permits easy handling of tongs and crucibles, while the Aramid woven cuff adds extra heat protection. ANSI Cut 5 & Heat rating of 5, ideal for refining and casting applications.

TECHNICAL INFORMATION:

ANSI 105
CUT
A5
2958g

PRODUCT FEATURES:

- ▶ Knit Shell Made With 800g Aramid for Heat & Abrasion Resistance
- ▶ Lining Made With 850g 100% Wool Provides Added Thermal Protection
- ▶ 8" Aramid Woven Safety Cuff for Added Protection
- ▶ Fire Resistant Name Label for Easy Identification
