

USER INSTRUCTIONS

KKCA5 KONG® KNIT CUT A5 EN388 – IRONCLAD PERFORMANCE WEAR

Users Guide: PPE EN 388:2016 and EN 420:2003+A1:2009 Cat.2 Glove

These products are classed as Personal Protective Equipment (PPE) by the European PPE Regulation (EU) 2016 / 425 and have been shown to comply with this Regulation through the Harmonized European Standards EN 388:2016 and EN 420:2003+A1:2009.

Glove Description: Red palm coated glove with a black and white textile back with black and yellow TPR rubber impact protectors.

The user must select the appropriate gloves for the task in hand.

Storage and transport: When not in use, store the product in a well-ventilated area away from extremes of temperature

Obsolescence information: Inspect the gloves before use for tears or holes if any are found do not use the gloves and dispose of them.

Cleaning instructions: The gloves should be wiped clean under lukewarm water only.

Allergy information: Gloves do not contain any harmful substances to the wearer

Tested in accordance with EN388:2016  4X43EP		Level
	Abrasion resistance	4
	Blade cut resistance	X
	Tear resistance	4
	Puncture resistance	3
	TDM cut resistance	E
	Impact Protection	PASS

EN388:2016 Levels are based upon the table below:

Performance Level	1	2	3	4	5	
6.1 Abrasion resistance (cycles to failure)	100	500	2000	8000	N/A	
6.2 Blade cut resistance (minimum cut resistance index)	1.2	2.5	5	10	20	
6.4 Tear resistance (lowest peak force / N)	10	25	50	75	N/A	
6.5 Puncture resistance (lowest peak force / N)	20	60	100	150	N/A	
6.3 TDM Cut resistance	A	B	C	D	E	F
Newtons (N)	2	5	10	15	22	30

Level "X": indicates that the glove has not been submitted to the test or the test method appears not to be suitable for the glove design or material

Impact Protection: Where the gloves meet the requirements of EN 388 for impact protection the marking code "P" is added after the five performance levels. The test has been carried out with impact energy of 5 J. Impact protection has been tested and rated at the knuckle area of the glove only. Impact protection has not been tested and rated at the areas of the fingers.

Gloves are not suitable for chemical applications.

Tear performance is greater than level 1, the glove shall not be worn when there is a risk of entanglement by moving parts of machines.

Glove Sizes (marked according to EN 420): 7, 8, 9, 10, 11, 12

Do not apply heat. New and used gloves should be thoroughly inspected for damage before use. Information regarding protection refers to the working surface, i.e "the palm side" of the glove, which has been submitted for testing. The protection levels indicated are only valid for new gloves

They have been subject to a EU type examination performed by:
